## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 6 depends from claim 5 which appears to be for a specific embodiment. Claim 6 is for a different embodiment and can not include all the limitations of the previous claim i.e. a semicircular groove and semicircular plunger. Which embodiment is being claimed?

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Filan.

The device would inherently cut a tie strap.

Claims 1, 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Osborne et al. Osborne inherently cuts straps.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Tull.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3724

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 3 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Filan. The cutters of Filan appear to be partially conical as claimed but if not then making them so would appear to be an obvious matter of design selection within the skill of an artisan.

***Allowable Subject Matter***

Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
